

SUMMER 2017?

MAKE AN ALTERNATIVE CHOICE!

Just pack a bit of **generosity** and **willingness** into your suitcase and leave for a **solidarity camp** of the Italian University Builders (UC)

The University Builders' volunteering organization does not promise you the moon but will offer you the opportunity to **build your inner growth and spiritual rebirth**, sharing the Christian values of selflessness and empathy for the others.

*What can you do in the University Builders (UC)' Solidarity Camp?
You can learn, grow, have fun, and make friends.*

Volunteers in solidarity camps help in small construction works undertaken by associations and institutions operating in the social field that cannot afford the expenses required by the requalification of the buildings where they carry out their activities.

NO WORRIES! The planned activities are suitable for all volunteers from 16 to 75 years of age, and no specific expertise in the construction field is required.

Join the UC volunteers' team participating in one of our one-week (or longer) solidarity camps.
